## Welcome to the Kantega Single Sign-On (SSO) Documentation

**Kantega SSO Enterprise** - SAML and Kerberos  
for Jira, Confluence, Bitbucket, Bamboo and FeCru

This is the legacy documentation site for Kantega SSO. We're currently in the process of migrating this documentation to the new site on <https://kantega-sso.atlassian.net/wiki/x/hwAb>. The legacy documentation will stay operational, but will not be updated.
