

Overview

Welcome to the Kantega Single Sign-On (SSO) Documentation

**Kantega SSO Enterprise - SAML and Kerberos
for Jira, Confluence, Bitbucket, Bamboo and FeCru**

This is the legacy documentation site for Kantega SSO. We're currently in the process of migrating this documentation to the new site on <https://kantega-sso.atlassian.net/wiki/x/hwAb>. The legacy documentation will stay operational, but will not be updated.
